Appendix B
Decision-Making Flowchart – Academic Planning – Class Delivery Mode

Goal: Review of academic programs and provide recommendations about delivery mode

Goal: Decide on the suitability of recommendations for delivery on campus.

Note: Decision are subject to logistical review for consistency across academic units and logistical feasibility.

Key considerations: Principles and criteria defined by PRT/PEC, identified funding source for new cost associated with the return plan, necessary supporting services, alternate mode of performing the activity, phase during which the activity should return.

Goal: Logistical review for consistency across academic units and logistical feasibility

Membership: Patti McDougall (for the Provost), representation from Deans and representation from PRT and COT

Department Heads
