REQUEST TO CONTINUE RESEARCH ON CAMPUS AND AT FIELD SITES

*The University fully supports researchers continuing as much research as possible remotely. Researchers who think they have exceptional circumstances requiring on-campus or field-site activity should **complete this form by Tuesday, March 24, 2020 at 9:00 am** and direct their requests to their Dean, who will work with the Vice-President Research to make a joint determination.*

Principal Investigator(s):

College/Department:

Email:

Phone:

Building room number(s) or field-site location(s) of research activity:

Names of any collaborators, graduate students, post-docs, research associates and research technicians involved.

Briefly describe why continuing this research is essential (specifically, what are the consequences of suspending this work?) [maximum 200 words]

Outline your plan for ensuring safety of all research collaborators and personnel. Please include the following [maximum 200 words]:

- a) The procedures for decontaminating the lab prior, during and after use; and
- b) You and/or your collaborators and research personnel become ill and cannot continue the work.

Required Approvals:

Dean:

Date/time:

Vice-President Research:
